

FACEBOOK PROMO VIDEOS FOR VIDEO AD CAMPAIGNS

Type of video. Full motion video captured with a newer mobile phone or 1080 camera. Voiceovers or Powerpoint-based screen recordings will do but aren't recommended for physical or eCommerce products.

We will edit them (for active clients). You can upload to Google Drive or Basecamp; or send us a Youtube/Google/Messenger link and we'll download. For best quality, just upload straight to Google Drive or Basecamp so we can get the full resolution of the video.

Scripts. You don't need to read the script word for word, but it helps. Two tools that we use internal are:

- Teleprompter Pro (iPhone): <https://apps.apple.com/us/app/video-teleprompter/id1444106389>
- EasyPrompter (for desktop): <https://www.easyprompter.com/>

Location Tips: Record in at least one good location with good light and good sound.

Not required, but a bonus... Ideally, record the script below in 3 different locations and we'll edit them together.

Examples:

- One inside, like in your office or store.
- One outside, like in front of your store, in your yard, at a greenhouse, or at a lake. Weather permitting of course.
- One inside a communal place like in a conference room, on a bridge, in a park, in a coffee shop, etc.
